Tasting Notes						
《"Umeshu" or Plum Liqueur from a Sake Brewery》 《The Exquisite Harmony of Plums and Junmai Sake》						
We use three kinds of Niigata-grown plums, “Koshi no Ume,” “Kosaka Ume,” and “Togoro Ume.” All of these varieties are characterized by their uniform size, abundant flesh, and very dense texture. This plum liqueur, slowly steeped and aged for over a year in KIKUSUI Junmai Sake, is infused with a rich plum flavor, resulting in a masterpiece that perfectly balances a robust acidity with a rich sweetness.
